VIVUS BIO

COMPANY

BACKGROUND

Welcome to Vivus Bio and our biohazardous cleaning services, where compassion meets expertise in ensuring safe and clean environments in Tamworth, Birmingham & surrounding areas. At Vivus Bio, we understand the delicate nature of biohazard cleanup and the profound impact it can have on individuals and communities. With a deep-rooted, ethical approach and understanding of mental health challenges, cultivated through personal experiences, we approach our work with empathy and sensitivity.

Our team of 17 staff and growing have a vast amount of knowledge in this type of work and we have forged strong connections within communities with adult social workers, charities and support groups, recognising the importance of signposting and collaboration in supporting those in need. Whether it's assisting with the clean up process after traumatic events or aiding service users struggling with poor living conditions, we stand committed to providing a reliable and compassionate service.

In partnership with borough councils and hospitals, we specialise in biohazardous and medical cleaning, addressing situations that require meticulous attention to detail and adherence to strict safety protocols. From crime scenes, needle sweeps to trauma cleaning, our trained professionals are equipped to handle the most challenging environments with care and efficiency.

At Vivus Bio, our mission goes beyond just cleaning; it's about restoring peace of mind and promoting healing, continuation of services and lives in the aftermath of distressing events.

We specialise in transforming properties affected by a range of challenging situations. From hoarding, fire and soot restoration, void properties, bodily fluid cleans up, mould removal, trauma, decomposition and after death cleaning, industrial accidents, and attempted suicides (this list is not exhaustive), our team is dedicated to restoring spaces to their safest and most habitable state. We can organise locksmiths to gain access, we also take care of safe and licensed Biohazardous waste disposal as well as replacing any items which may be needed by the client.

With Vivus Bio our expertise and dedication, fully DBS checked, personable and highly trained staff and fully risk assessed procedures and processes, you can trust us to deliver reliable, efficient, safe and compassionate Biohazardous cleaning services quickly when you need them most.

OUR SPECIALIST **SERVICES**

Needle Sweeps, Sharps & Drug Den Clean Ups

Due to the risk of working with needles & sharps, it is classed as a biohazard. There are many risks associated with sharps clean ups, with exposure to viruses including HIV, hepatitis B and C. Needles and sharps can be found in places you wouldn't even think of! This is where we have the correct training to safely remove and dispose of so the property is safe in order for your return.

Toxic And Foul Odours & Their Elimination

This consists of animal waste, human bodily fluids, decomposition, and sewage. These toxic odours can cause animals and humans harm, with temporary symptoms of these odours causing headaches, itching, watering eyes, sneezing & nausea. We are trained to use the correct chemicals and professionally clean toxic & foul odours, to ensure they are fully removed and remove the risk to harm. We will do this by identifying the risks & source, eliminating the source & deodorising contaminated areas.

Void Properties & Squats

A very specialised service and one that requires a high level of safety and attention to detail. Void properties and squats can often harbour a number of hazards. Our team are highly trained in identifying and removing this while keeping the safety of the general public and others as top priority. We work efficiently to return properties to their rightful state.

Hoarding & Animal Services

We offer a specialised hoarding service, as we understand no two hoarders can be the same. We are fully trained in wet, dry, animal and data hoarding, & offer a non-judgemental approach. We can also dispose of any waste meaning that the property will be restored efficiently and hassle free.

Fire & Smoke Damage

This is a very challenging clean up that requires a lot of care and attention due to the damage fire & smoke can do. Our team work efficiently to restore properties or buildings that have been affected and ensure that those entering are greeted by a clean and pleasant environment. This particular area of cleaning has cause for our specialist equipment and our experienced team, as with any clean, they relish the opportunity to make a difference.

OUR SPECIALIST

SERVICES

Mould & Mildew Cleaning

A vital and often overlooked service we offer addresses the serious issue of mould and mildew, which is classed as a Category 1 hazard in the UK under the Housing Health and Safety Rating System (HHSRS). If left untreated, mould and mildew can lead to severe long-term health problems, and exposure must be kept to an absolute minimum. Our team takes great care when entering any property, not only in handling the mould or mildew but also in respecting the property and belongings. We understand that discovering mould can be distressing, and we approach each job with sensitivity, respect, and professionalism.

Infection Control & Outbreaks

Handling infection control and outbreaks requires an exceptionally high level of training, care, and expertise, as failure to get it right the first time can have serious consequences. All our staff are trained to the highest standards in this highly specialised field of cleaning. With our state-of-the-art equipment and advanced techniques, we ensure thorough results, providing you with complete peace of mind.

Fogging & Area Type Cleaning

Fogging is a specialised process in which a disinfectant is dispersed as a fine mist using a fogging machine. This method effectively eliminates airborne pathogens as well as those found on surfaces, making it an ideal solution for environments such as schools.

It is essential to engage a fully trained and qualified specialist for this type of work, as improper handling can pose significant risks. Fortunately, our team is highly trained and certified to carry out fogging safely and effectively, ensuring thorough disinfection and peace of mind.

PLUS

Vehicle & Cell Cleaning, Nicotine Removal
& Decontamination Services.

WHY CHOOSE TO WORK WITH US

We are not just another cleaning company. Our team is rigorously vetted and trained to exceed industry standards that many consider unattainable. We value every client equally, whether current or prospective, and dedicate the same level of effort to maintaining strong relationships as we do to welcoming new ones.

We understand that every client and project is unique, with distinct needs, operations, and service requirements. However, one constant is the thorough and tailored process we implement for each client.

This meticulous approach ensures clear communication at every stage, leaving you with results that not only meet but exceed your highest expectations.

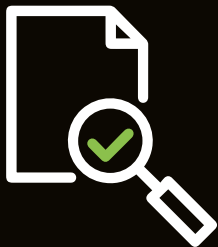

INITIAL CONSULTATION

We'll call or meet to discuss your cleaning needs & develop a cleaning plan that will work for you.

OUR CLEAN TEAM

Our team of experienced cleaners will clean your premises using the best products and equipment available. You're going to love the results and level of professionalism.

JOB CHECKLIST

After each job we carry out a detailed sweep, checking over our work to ensure we meet our own high standards, as well as yours.

FOLLOW-UP

We always like to make sure you're satisfied with the job we do & the way we leave your premises. It's important to us because if you're not happy, we're not happy.
